

# **PhDr. Martin Dolejš, Ph.D.**

## **Head of the Department**

**In 2007, he completed his studies in psychology at the Department of Psychology at the Faculty of Arts of Palacký University in Olomouc and in the following years he studied at the same Department in the postgraduate programme, which he completed in 2010. The dissertation is entitled “Early effective diagnostics of risk behaviour in adolescents”. Since 2010 he has been working as an assistant professor at the Department of Psychology, Faculty of Arts, Palacký University in Olomouc and since 2019 he has been its Head. In his professional life he focuses on quantitative and qualitative methodology, the realization of questionnaire surveys, the creation and standardization of psychodiagnostic tools and the organization of professional conferences.**

**He was, and is, the head of several educational projects (OPVK) and research projects (IGA). He is a co-author of several scientific monographs (for example: Who and What Manages Czech Adolescents?; The Playing of Digital Games by Czech Adolescents), articles and psychodiagnostic methods (e.g.: The Dolejš, Skopal and Suchá Scale of Depressivity; Digital Games Questionnaire). For some monographs he received honourable mentions from the Rector of Palacký University. His main leisure activity is sports (rafting, whitewater slalom).**
